The Itinerating Pestilence.

We have been afflicted this week with a protracted visit by the reverend smiler, whose visage is a fac-simthree of his comates in the infamous and ungodly work d stiring up dissensions and strife in this community. Ther are here to watch the progress of the suit now They are not be a second of the Helpholts of the Helpholts (bluech in this place. This viitian and secondesi who has diagraced the ministerial profestion by his acts of treason should rather he following a plue to support some folies in Sullivan county, with sunable crimes and take cognizance of the franci resions of their sweet-visaged Shepherd, lett he bring spreach upon their cause. The men in this commu-nity, who are whispering words of comfort into the ars of this band of traitors and hypocrites are regards in the same odious light by the loyal people of the enunity; and the day will come, just as certain na od rules the distintes of men, when they will repent of this crusade against the peace and the true religion god. These scoundrels were once exted from the tory of an outraged soldlery by the very men they are suting, but now that they have shown their earliest ingratitude by adding insuits to injuries the was people will "mock at their calamities and laugh when their fear cometh," should the passions of this sidiery ever again be aroused.

Town Improvements.

We have inadvertently failed to notice the various aprovements being made upon our streets. Huge ites of rocks, for paving purposes, are to be seen avery where, halos in the streets are being filled up and diisplitted side walks repaired. A plank way has been contracted, leading from the Court House to the De-This has long been needed as per ambulation in intpart of town was very disagregable in neadly weather, under the old order of things. A shed will absenced over the town scales, the material being already on hands. Mr. Calvin Shaw, the "boss" of the working force, drives ahead with vigor and on erry Our city Fathers seem to be infused with a fresh spirit of enterprise, and under their administration, or ancient " burg " will soon present a nest and ariractive appearance. Town Councilmen are generally spoken of as being

as stupid and Bieless as Hindoo Gods, but we will join he issue with any one who so represents ours,

Sale of the Emory Iron Works. We learn through Mr. John Caldwell and Judge Lucky that the Emory Iron Works, situated eight-miles from this place, on the river, were sold on the 75th inst., to a New York Company for sixty thousand dollars. The amount was paid down by the Agent of the Company, Mr. Trowbridge, brether of General Trowbridge, of Knorville. The Company have a large working capital in reserve, and will go to wark at once. We want to see a large influx of Northern capital and esterprise into these mountain regions. Before our country can become rich our mineral and agricultural

courses must be developed, and we hall the coming of these Northern capitalists as a beginning towards that desirable consummation. BF Chancery Court is in session at this place. Hon J. W. Lucky providing. A good deal of business has been disposed of to the joy of some and the disappointment of others. Quite a number of the legal profession are in attendance. The Court has not brought many of the sovereigns to town owing to the
